

SENIOR HOME SAFETY PROGRAM

Our Senior Home Safety Program is designed to help seniors live more safely in their homes. We assist Marathon County homeowners age 60 and over by installing grab bars and hand railings to reduce falls within the home (some eligibility qualifications may apply). We work closely with trained and skilled volunteers to make home safety related modifications at no cost to the homeowner.

Senior Home Safety Program

Are you afraid of falling in your home? Would you feel safer with grab bars in your bathroom or hand rails to help keep your balance? Many seniors want to age in place, but a fall could result in a premature move to a nursing home or assisted living facility. Accidental falls are one of the leading causes of injury and death in people over 65 worldwide.

Faith in Action of Marathon County will provide a free home safety assessment and install the necessary home safety enhancements for area seniors. Our trained and skilled volunteers will help you to feel safer in your home with the installation of grab bars and/or hand railings to allow you to live more safely and independently in your home.

If you, or someone you know could benefit from home safety enhancements, please call Faith in Action of Marathon County at (715) 848-8783 to discuss.
